À PROPOS DE MOI

Passionate about technology, I like to explore all aspects of a digital project.

From the creation of a site in PHP to the front-end development of a showcase site, including UX/UI analysis, I have developed great versatility.

This technical curiosity is the reflection of my personality: eager for challenges, open to new experiences and always ready to build, whether it's code or my next trip.

FORMATION

WRITING MULTIMEDIA - ISFSC (BRUSSELS) - SINCE 2023

Professionalizing curriculum that combines content strategy, UX/UI design, and web development to form versatile digital profiles.
